DETAILED ACTION

1. This office action is in reply to an amendment filed on March 21, 2006. Claims 6-8 and 53 have been amended. Claims 6-8 and 53 are examined and claims 1-5, 9, 10 and 15-52 have been withdrawn.

Response to Arguments

2. Applicant's arguments with respect to claims 6-8 and 53 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 6-8 and 53 are rejected under 35 U.S.C. 102(e) as being anticipated by Patel US 6,591,364 B1.

5. As per claims 6-8 and 53, Patel teaches an information processing apparatus for reciprocal authentication (i.e., mutual authentication) with another processing apparatus to execute pre-set processing, comprising:

receiving means for receiving a key category, a random number, and a device ID from said another information processing apparatus (i.e., random number, type data and id

transmitted from the mobile device to the VLR) [column 3, line 65 – column 4, line 10 and figures 2-4];

selecting means for selecting the processing for reciprocal authentication being executed from one or more reciprocal authentication procedures in keeping with said pre-set processing (i.e., based on the type data and id data calculating corresponding values) [column 4, lines 3-10 and figures 2-4];

reciprocal authentication means for executing the selected reciprocal authentication procedures by said selection means based on the key category (i.e., based on the type data and id data calculating corresponding values) [column 4, lines 3-10 and figures 2-4]; and

key creation means for establishing a common key shared with said another information processing apparatus based on the key category and device ID [column 4, lines 11-21 and figures 2-4].

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
